PROFESSIONAL SUMMARY

Final year B.Tech Computer Science (AI & ML) student with a strong foundation in building responsive, user-facing web applications and data-driven projects. Experienced in taking projects from ideation to deployment, with a focus on clean code and intuitive user experience. Adept at understanding user needs, collaborating effectively, and delivering solutions that solve real-world problems. Eager to apply technical skills and analytical thinking in a growth-oriented developer role.

EDUCATION

Bachelor of Technology in Computer Science & Engineering (AI & ML) **2023 – 2027**

Dr. A.P.J Abdul Kalam Technical University (AKTU), Greater Noida, UP

Percentage: 80.36% (*till 5th semester*)

Class XII

85.20%

Little Flower School, Gorakhpur, UP

Class X

80.00%

Little Flower School, Gorakhpur, UP

PROJECTS

SymptomSync — AI Health Tracker *React.js, Node.js, Express.js, MongoDB Atlas, JWT, OpenRouter AI, Recharts, jsPDF*

- Designed and built a full-stack health tracking platform serving multiple user roles, with secure login, appointment management, and medicine tracking.
- Identified user pain points and integrated AI-driven suggestions and auto-generated PDF health reports to improve user experience and engagement.

In-Browser Code Editor

HTML, CSS, JavaScript, Monaco Editor

- Built a browser-based code editor supporting HTML, CSS, JavaScript, Python, Java and C++.
- Implemented file and folder management including create, rename, upload and delete features.
- Integrated Skulpt for running Python directly in the browser without any backend.
- Added auto-save, resizable panels, dark/light mode and downloadable ZIP support.

Foodie Express — Food Delivery Web App *HTML, CSS, JavaScript, Swiper.js, jsPDF, Canvas Confetti, Web Speech API, OpenStreetMap API*

- Developed a food ordering web application with cart management, wishlist, and a virtual wallet with points-based gamification system.
- Implemented voice search using Web Speech API and live location detection via OpenStreetMap API.
- Integrated Swiper.js for touch-enabled sliders and auto-generated downloadable receipts using jsPDF.

TECHNICAL SKILLS

Languages: Java

Web Technologies: HTML, CSS, JavaScript, Tailwind CSS, React.js

Database: MySQL, MongoDB Atlas

Tools & Platforms: Git, VS Code, GitHub

Coursework: Data Structures & Algorithms, OOP, DBMS, OS, Computer Networks

CERTIFICATIONS & ACHIEVEMENTS

- HackerRank — SQL (Basic) Verified | Problem Solving (Basic) Verified
- HackerRank — SQL 4-star badge, Java 4-star badge
- Infosys Certification on Data Structures using Python and Java
- AWS Academy Graduate
- Selected in Smart India Hackathon (SIH) at college level

SOFT SKILLS

Problem Solving | Communication | Collaboration | Adaptability | Critical Thinking | Creativity | Multitasking
